Author	NovaCare Operations
Classification	Internal Knowledge Base
Document Id	NC-FAQ-001
Document Type	FAQ

1. Payments

Q: Why did my payment fail?
A: Verify the payment status first. A gateway timeout does not necessarily mean the transaction failed.

• **Q: I was charged twice. What should I do?** A: Provide the transaction references. Support will verify whether two completed transactions exist and apply the Refund Policy if appropriate.

• **Q: My payment succeeded but my subscription is not active. Why?** A: The Payment Gateway and Subscription Service may be temporarily out of sync. Support will verify both states.

2. Refunds

Q: How long does a refund take?
A: NovaCare targets refund initiation within two business days after eligibility is confirmed. External bank processing may take longer.

• **Q: Can I get a refund after cancelling?** A: Cancellation does not automatically create a refund. Eligibility depends on the Refund Policy.

3. Accounts

Q: I cannot log in.
A: Account recovery and Authentication Service checks should be performed. If multiple customers report the same problem, the issue may be service-wide.

4. Subscriptions

Q: What happens when my subscription is cancelled?
A: The Subscription Service records the subscription state. Billing and refund treatment depend on the applicable subscription and refund policies.

5. Support Escalation

Q: When will my issue be escalated?
A: Cases are escalated based on severity, business impact, security risk, recurrence, and unresolved operational conditions.
